

Home care services

At Cherished Home Care, we are committed to providing you with the freedom and independence to live life according to your wishes, from home, no matter where you are in your care journey.

While we may be a newcomer in the field, we have the privilege of working closely with our sister companies, The Good Care Group and Oxford Aunts. Together, they have an impressive 70 years of collective care experience, from which we draw knowledge and expertise, to deliver person-centred care to you.

What is **home care**?

Home care is provided to people living in their own homes who require additional support with day-to-day life so that they can stay happy and healthy at home.

Our professional carers can support with:

- Personal care
- Household duties
- Mobility assistance
- Pet care
- Condition-led care
- Medication management and administration
- Companionship
- Accessing your local community
- Running errands
- Grocery shopping

Over 66% of people said they would prefer to stay in their own home.

– **The Live-in Care Hub, 2023**

How is home care **provided**?

There are a number of home care services that can be provided to you in the following formats:

Live-in care: This involves a carer residing within your home for a set period of time to provide you with around-the-clock care, to help you maintain your independence.

Hourly care: An hourly carer can visit your home from as little as one hour per day, three times a week to assist with personal care, administering medication and light housekeeping.

Overnight care: Our carers can support you throughout the night to provide peace of mind for you and your loved ones and to aid a better night's sleep.

Respite care: If your primary caregiver is taking a break, this temporary solution can support you with your personal care and day-to-day activities.

Complex care: This expert-led support is often provided to individuals living with complex conditions such as dementia, Parkinson's and multiple sclerosis.

Why choose **Cherished Home Care**?

We are a brand-new home care provider based in London, offering local, bespoke care to you in your home. We may be new, but we have the expertise, knowledge and experience of 'Outstanding' care provider, The Good Care Group, who work closely with our Cherished team to provide high-quality care, support and carer training.

Cost-effective care

Pay for the care you need when you require it with our market-leading rates.
